Gustavo Fontenelle Belmiro

Tech Lead | Mid-Level Full Stack Developer & AI Automation

Rio de Janeiro, Brazil | +55 (21) 97654-6644 | contato.gusttaa@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Tech Lead at VMB Invest, where I designed from scratch the architecture of the central CRM and the VMB Platform and lead a team of 6 developers. Production experience with React, Next.js, TypeScript, PostgreSQL/Supabase and AI automation (n8n, OpenAI, Gemini and Claude APIs). Background in game dev with Verse (UE5) and Lua. Advanced English, with professional experience in the United States.

TECHNICAL SKILLS

- **Frontend:** React, Next.js, TypeScript, JavaScript, Tailwind CSS
- **Backend & Data:** Python, REST APIs, webhooks, PostgreSQL, Supabase, Prisma, MySQL
- **AI & Automation:** n8n, LLM APIs (OpenAI, Gemini, Claude), AI agents · **Other:** Verse (UE5), Lua, Git, GitHub Actions, Docker, Vercel

PROFESSIONAL EXPERIENCE

VMB Invest *Aug 2026 – Present · joined as a back-office intern*

Tech Lead *Sep 2026 – Present*

- Own the roadmap for the central CRM and the VMB Platform and lead 6 junior developers and interns, running code reviews and setting engineering standards.
- Led the migration of internal systems into a single TypeScript application (Next.js + PostgreSQL/Supabase), in phases, with no disruption to operations.

Full Stack Developer *Aug 2026 – Sep 2026*

- Designed from scratch the architecture of the central CRM and the VMB Platform, based on the brokerage's business rules.
- Automated the consortium bid workflow, eliminating about 8 hours of manual back-office work per week (over 30 hours per month).
- Built three internal systems (portal, operations system and advisor dashboard) that automated daily back-office routines, such as scheduling the closers' agenda and logging every sale.

Ninja Studios + Level 8 | Junior Developer — Game Dev *Sep 2024 – Jun 2025*

- Architected core systems for multiplayer games in UE5 using Verse (Season Pass, boss mechanics), resolving critical integration bugs.

CataLendas | Developer — Game Dev *2024 – 2025*

- Sole technical developer: architecture, infrastructure, performance, and API and user database integration.

Tomatos MetaVerse | Junior Developer — Lua / FiveM *Jan 2022 – Apr 2023*

- Sole developer of a FiveM (GTA V) roleplay server: built gameplay systems and optimized the codebase. Lua, JavaScript, MySQL.

Lubes em Foco | Intern / Developer *2021 – 2024*

- WordPress portal with custom HTML, CSS and JavaScript, plus automated reports on the oil and gas sector.

Work and Travel (USA) | *Harbor Springs, Michigan · Dec 2024 – Mar 2025* — fully English-speaking environment with a multicultural team.

PROJECTS (FREELANCE & PERSONAL)

- **AutomateLubes** — summarizes industry news with the Claude API and publishes drafts to WordPress. Python. · **Real estate chatbot** — qualifies leads and books visits via WhatsApp. n8n.
- **SpartaBarber** and **Somnia Arcana** — booking system with admin panel and e-commerce with an online reader. Next.js, TypeScript, PostgreSQL (Supabase), Prisma.

EDUCATION & LANGUAGES

B.Sc. in Computer Science — Universidade Estácio de Sá · *expected Jan 2027* · Portuguese (native), English (advanced)
